

Veterans Affairs & TRICARE

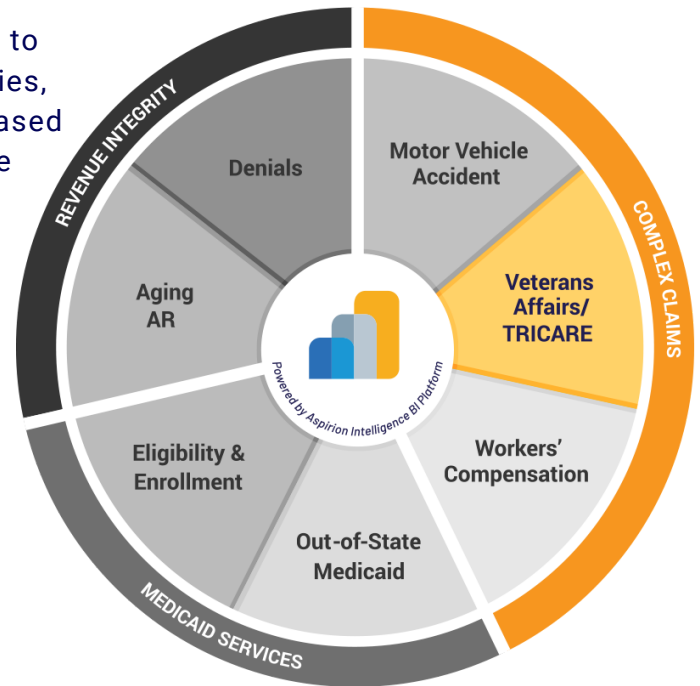

Alleviate VA process challenges and increase your collections

When the Mission Act of 2018 enabled veterans to receive care at non-Veterans Affairs (VA) facilities, community hospitals were inundated with increased traffic. Unfortunately, without a clear-cut avenue for payment, facilities today are struggling to collect on their growing number of VA claims.

WHY OUTSOURCE

The process for VA reimbursement is tedious, time-intensive, and complicated—and TRICARE claims pose a similar challenge as rules and regulations continue to evolve.

As a result, many health systems simply write off VA/TRICARE claims as losses—but Aspirion can eliminate those challenges.

THE ASPIRION DIFFERENCE

Our specialists have helped facilities nationwide double their collections from VA/TRICARE claims in as little as one year—and we want to equip you to do the same.

With Aspirion as your partner, you will get:

- **92% success rate**
- **Experienced team** to investigate claims, identify correct payors, and submit complete claim packages for timely payment
- **Certified coding specialists** who provide recommendations on coding corrections
- Full utilization of **all VA programs**
- **Dedicated patient access training** to eliminate eligibility-related denials
- **Improved patient experience** for veterans

COMMON VA CHALLENGES

- Confusion on patient eligibility
- Uncertainty on where to submit claims
- Difficult follow-up processes
- Limited denial information
